REPORT ON CORPORATE GOVERNANCE AND OWNERSHIP STRUCTURE

Introduction

This report contains the information on the corporate governance and ownership structure of Buzzi Unicem SpA (hereinafter referred to as Buzzi Unicem) pursuant to article 123 bis of Legislative Decree 24 February 1988 no. 58 as amended (hereinafter referred to as TUF), also in compliance with the Code of Conduct of listed companies approved in July 2015 by the Corporate Governance Committee and promoted by Borsa Italiana S.p.A, Ania, Assogestioni, Assonime and Confindustria (hereinafter referred to as “Code of Conduct” or simply “Code”) to which Buzzi Unicem adheres under the terms reported in this report.

The above Code of Conduct to which Buzzi Unicem adheres is available to the public on the Corporate Governance Committee’s website (<http://www.borsaitaliana.it/comitato-corporate-governance/codice/codice.htm>).

Part I – General description of Buzzi Unicem SpA organizational structure

Buzzi Unicem SpA’s organizational structure consists of the following main corporate bodies:

- Shareholders’ meeting;
- Board of directors;
- Chairman of the board of directors;
- one Vice Chairman of the board of directors;
- two Managing Directors;
- Statutory auditors’ committee.

This structure corresponds to the “traditional management and control model” issuing from the rules provided by the corporate law reform implemented by Legislative Decree no. 6 of January 17, 2003 as amended.

For the time being, the alternative management and control systems provided by the corporate law reform shall not be adopted.

Part II – Information on ownership structure

a) Shareholding structure and rights of the categories of shares (article 123 bis, paragraph 1, letter a), TUF)

As at the date of this report, Buzzi Unicem’s subscribed and paid up share capital amounts to 123,636,658.80 euro consisting of #165,349,149 ordinary shares (80.243% of share capital) and #40,711,949 savings shares (19.757% of share capital), all with a par value of 0.60 euro each.

The Extraordinary Shareholders’ Meeting of November 8, 2013 resolved to increase for cash the share capital, payable in tranches, excluding the pre-emption rights pursuant to art. 2441,

paragraph 5, of civil code, for a total nominal amount of 8,257,224.60 issued in one or more times up to a maximum of #13,762,041 ordinary shares of the company of a par value of 0.60 euro each and bearing the same features as the ordinary shares already outstanding, to be solely reserved for the purposes of the conversion of the equity-linked bond of an amount of 220,000,000 euro, with final maturity on 17 July 2019, intended only for qualified investors, named “Buzzi Unicem €220,000,000 1.375% Equity-Linked Bonds due 2019”. It is understood that the deadline for the subscription of the shares of new issue is set on 17 July 2019. In the event the capital increase should not be fully subscribed within the deadline for subscription, then the capital will be increased by the amount of subscriptions made and effective from the date of subscription, with the directors being specifically authorized to issue the new shares as they are subscribed.

Below are summary tables relating to the share capital structure and other financial instruments that give the right to subscribe for new shares:

SHARE CAPITAL STRUCTURE			
	Share no.	% vs. capital	Listed (Market)/not listed
Ordinary shares	165.349.149	80,243	MTA/FTSE MIB index Italy
Savings shares (with no voting rights)	40.711.949	19,757	MTA Italy
Multiple voting shares	-	-	-
Limited-voting shares	-	-	-
other	-	-	-

OTHER FINANCIAL INSTRUMENTS (that give the right to subscribe for new shares)				
	Listed (Market)/not listed	No. Of outstanding instruments	Share class to allow the conversion/exercise	No. of shares to allow the conversion/exercise
Convertible bonds (equity-linked notes)	MTF “Third Market”*/ Vienna	2.200	Ordinary shares	13.762.041
Warrant	-	-	-	-

*refers to a multilateral trading facility (MTF)

Ordinary and savings shares bear the rights and privileges as per articles 6, 7, 25, 27 and 28 of the bylaws. The key provisions are provided here below.

Ordinary shares are registered shares; savings shares are either bearer or registered shares at the option of their holder or as required by the law. All shares are issued in dematerialized form and are listed for trading on the Electronic Share Market managed by Borsa Italiana S.p.A.

Each ordinary share is entitled to vote in all ordinary and extraordinary shareholders’ meetings without any restrictions whatsoever. Savings shares are not entitled to vote.

The share capital may be increased also through the issue of shares bearing rights which differ from those attached to the outstanding shares, as well as through contribution in kind or by way of receivables.

In the event of increases in the share capital, holders of shares in each category shall be entitled to a proportional right of pre-emption on the newly issued shares in the same category or on newly issued shares in other categories, if shares of the same category are not available or their number is insufficient.

The capital can be increased within the limit of 10% of the existing share capital also in case of cash payment and with the exclusion of the pre-emption right, on condition that the issuing price corresponds to the market value of the shares and this is confirmed by a legal auditor or a legal auditing firm in a special report.

Resolutions authorising the issuance of new shares bearing the same features as those already outstanding, either through capital increases or through the conversion of shares of another category, do not require further approval by special shareholders' meetings.

In case of reduction in share capital to cover losses, savings shares par value shall not be reduced, save to the extent to which the losses in question exceed the overall par value of the other shares.

In case savings shares should be delisted, they shall be converted into preferred shares, without any change in their dividend rights and assets distribution, with the features and procedures to be established by resolution of the extraordinary shareholders' meeting to be held within three months from delisting.

In case ordinary shares should be delisted, the additional dividend payable on savings shares in excess of the dividend payable to ordinary shares shall be automatically increased so as to represent 4.5% of the par value.

In order to ensure that the common representative is adequately informed about the transactions which may affect the listed prices of savings shares, the company's legal representative shall promptly inform the common representative of any such issues.

Net profit as indicated in the financial statements shall be allocated as follows:

- a) five percent to legal reserve until the amount of the latter reaches one fifth of the company's share capital;
- b) by way of a preferential dividend on savings shares up to the amount of five percent of the par value thereof;
- c) save where otherwise resolved by the shareholders' general meeting, the remainder by way of dividend on shares, in such manner that savings shares receive an overall dividend that exceeds the dividend payable to ordinary shares by four percent of the par value of the said savings shares.

In case, in a given fiscal year, savings shares should be assigned a dividend of less than five percent of their par value, the difference shall be compensated by an increase in the preferential dividend borne by such savings shares, during the two following fiscal years.

Dividends unclaimed for 5 years from the day they became payable shall be forfeited to the benefit of the company.

In case of distribution of reserves, savings shares shall have the same rights as ordinary shares.

In case of dissolution, the company's assets shall be distributed as follows, in order of priority:

- a) to the savings shares up to their par value;
 - b) to the ordinary shares up to their par value;
 - c) the remainder, if any, shall be equally shared between the two categories of shares.
- No financial instrument grant schemes exist.

b) Restrictions on share transfer (article 123 bis, paragraph 1, letter b), TUF)

There are no restrictions on share transfer or acceptance clauses.

c) Significant shareholdings (article 123 bis, paragraph 1, letter c, TUF)

As resulting from Buzzi Unicem shareholders' register, integrated with Consob communications and available information, Buzzi Unicem's shareholders that, as at the date of this report, directly or indirectly hold shares with voting rights in the ordinary general meeting representing more than 3% of the ordinary stock or a number of shares equal to or greater than the other thresholds established by the applicable regulations, are the following:

	no of ordinary shares	% of ordinary stock
Fimedi Group		
PRESA SpA	79,200,000	47.899
FIMEDI SpA	17,750,000	10.735
	96,950,000	58.634
BUZZI UNICEM SpA *	50,000	0.030

**with voting rights suspended, being treasury shares*

As at the date of this report, based on the above mentioned ownership, Fimedi S.p.A. directly or through Presa S.p.A. (subsidiary with a stake of 100%% of ordinary stock) is Buzzi Unicem majority shareholder.

d) Shares granting special rights of control (article 123 bis, paragraph 1, letter d), TUF)

No shares granting special rights of control have been issued.

e) Employees' shareholding: system of voting rights exercise (article 123 bis, paragraph 1, letter e), TUF)

There are no employees' shareholding plans in which the voting right is not directly exercised by the same.

f) Restrictions on voting right (article 123 bis, paragraph 1, letter f), TUF)

There are no restrictions on voting rights nor terms imposed for the exercise of the voting rights nor systems in which, with the company's cooperation, the financial rights attached to shares are separate from their ownership.

g) Shareholders' agreements (article 123 bis, paragraph 1, letter g,) TUF)

As far as Buzzi Unicem is aware, no shareholders agreements, as per art. 122 of TUF, exist related to Buzzi Unicem shares.

h) Clauses of change of control (article 123 bis, paragraph 1, letter h,) TUF) and statutory provisions on offers to purchase (articles 104, paragraph 1 ter, and 104 bis, paragraph 1 TUF)

As regards the existence of significant agreements which become effective, are modified or terminate in the event of direct and/or indirect change in the control of the company, it is important to note the following.

The revolving credit facility for a maximum amount of 200 million euro obtained in October 2015 and syndicated among some primary Italian and foreign banks as well as a loan of 100 million American dollars obtained from a leading American Bank in November 2015 contain a clause that in case of a decrease in the controlling shareholder's stake under 50% (or under 40% in the absence of other shareholders with a stake equal to or higher than that of the controlling shareholder) of Buzzi Unicem's voting rights, if no agreement is reached among the financing banks on the amendment, if necessary, of the loan terms, each bank can require the cancellation of the line of credit and the advance repayment of the part of the loan potentially granted.

Similarly, another line of credit for a maximum amount of 100 million euro, that was obtained at the end of May 2015 from a leading Italian bank, provides an opportunity for the latter to terminate the same line of credit, if the current controlling shareholder ceases to hold the majority of voting rights which are exercisable at Buzzi Unicem's shareholders' meeting.

The bond "Buzzi Unicem S.p.A. €350,000,000 – 6.250% Notes due 28 September 2018" issued on 28 September 2012 for an amount of €350 million and the bond "Buzzi Unicem S.p.A. € 500,000,000 - 5.125% Notes due 28 April 2023" issued on 28 April 2016 for an amount of €500 million contain a clause that, as it is customary, mandates call option if more than 50% of the voting rights of Buzzi Unicem are acquired by parties other than Buzzi Unicem's current controlling shareholder, on condition that, in the period of time elapsing from the disclosure of the prospective change of control and the expiry of the 120th day subsequent to the announcement that the change of control has occurred, the notes would no longer be rated or the rating would be downgraded (from investment grade to non investment grade or, if they were already rated as non investment grade, any downgrade).

The bond "Buzzi Unicem €220,000,000 1.375% Equity-Linked Bonds due 2019", issued on 17 July 2013 for an amount of €220 million contains a clause that, as it is customary, grants each bondholder the right to require early redemption of their Bonds (put option) at 100% of par value plus accrued interest as well as an adjustment to the conversion price in the event a party other than the current controlling shareholders should acquire more than 50% of the voting rights of Buzzi Unicem.

Moreover the loan obtained by Buzzi Unicem and its subsidiary Dyckerhoff in September 2017 for a total amount of €250 million, by means of the German "Schuldschein" legal

instrument, provides for a clause that gives lenders the possibility to request early repayment of the loan, if a party other than the current controlling parties acquires more than 50% of entire voting stock of Buzzi Unicem, provided that Buzzi Unicem suffers a rating reduction or that the change in the control is in contrast with the regulation of the country of the/of lenders. As for the companies w&p Cementi SpA and SaloniT Anhovo Gradbeni Materiali d.d., of which Buzzi Unicem holds an interest of 25% in the share capital, some shareholders' agreements have been entered into and are in force with the majority shareholder of the two companies which provide, among other things, that in the event of a change of control of either party, the other party is entitled to sell the whole of its shareholding to the part for which there has been a change of control at a price determined on the basis of the assessment by an independent expert appointed by the parties or, in case of disagreement, respectively, by the Court of Padova and Ljubljana.

Moreover, regarding the Mexican Company Corporación Moctezuma S.A.B. de C.V., of which Buzzi Unicem owns 50% of the controlling stake, a shareholders' agreement has been entered into and is in force with the other partner holding the remaining 50% of the controlling stake, which provides that in the event of changes in the control of either of the parties involved, the other party is entitled alternatively to (i) buy Corporación Moctezuma S.A.B. de C.V.'s shares at the same price as they were valued in the transaction which involved the change of control, or (ii) ask to sell to the third party also its own shareholding interest in Corporación Moctezuma S.A.B. de C.V, always at the same price as the shares were valued in the transaction which involved the change of control or (iii) accept the change of control.

Moreover regarding Kosmos Cement Company, a company operating in the United States with a cement plant located in Kentucky, and of which the subsidiary RC Lonestar Inc. owns a stake of 25% of the capital stock, an agreement exists with the other partner, which provides that in the event of changes in the control of either of the parties involved, the other party is entitled to sell its whole shareholding interest in Kosmos Cement Company to the other party for which the change of control has occurred at a price fixed on the basis of the company's book value reported in the latest financial statements.

Buzzi Unicem has not introduced any statutory provisions concerning takeover bids pursuant to Article 104, paragraph 1 ter, and 104 bis, paragraph 1, of TUF.

j) Agreements between the company and the directors (article 123 bis, paragraph 1, letter j), TUF)

No agreements have been entered into between Buzzi Unicem and the directors which provide for an indemnity in the case of resignation or dismissal without just cause or termination following a takeover bid.

No agreements exist which provide for the granting or maintaining of non-monetary benefits in favor of subjects whose assignments or "ad hoc" consultancy contracts for a period subsequent to the termination of the employment relationship have ceased.

Since no non-compete agreements exist, equally no agreements exist that provide for compensation for non-compete pledges.

For further information reference is made to the Report on remuneration drawn up pursuant to art. 123 ter of TUF.

l) Appointment and replacement of the directors and bylaws amendments (article 123 bis, paragraph 1, letter l), TUF)

The appointment of directors occurs by means of the slate voting system provided by art. 13 of the bylaws. In short the rules for the appointment and the replacement of directors provided by the bylaws are the following:

- the possibility to submit lists by shareholders with voting rights representing at least 2.5% of the voting stock in the ordinary general meeting or a different percentage fixed by Consob's regulation; Consob set this threshold at 1% of the voting stock for 2017, i.e. when the board of directors was renewed;
- the obligation to deposit the lists within the terms provided by the applicable regulations (the 25th day prior to the shareholders' meeting day) and to include in the lists consisting of at least three candidates at least two directors that qualifies as independent directors according to the article 147 ter of TUF and to complete the lists with the candidates' curricula;
- the obligation to form lists consisting of at least three candidates so that the gender less represented in the list would reach at least the minimum number provided by the regulations in force, rounded up, in case of fractional number, to the next higher whole number;
- a voting system which provides that all directors be elected from the list which obtained most of the votes except one who will be reserved to the list that obtained the second greatest number of votes, being understood that the lists which did not achieve a percentage of votes equivalent at least to half the percentage required to submit the list shall be disregarded;
- in case only one list should be submitted, the shareholders' meeting shall resolve by the simple majority of votes and should this list obtain the majority of the votes, the candidates shall be elected as directors in progressive order up to the number fixed by the shareholders' meeting;
- a voting system that provides that in the event the number of independent directors ex art. 147 ter of TUF provided by the applicable regulations, should not be elected, instead of the last one or, if need be, the second-last elected in the list which got the majority of votes, the first or, if need be, the second independent director ex art. 147 ter of TUF included in the list shall be considered as elected;
- the replacement within the majority list of the last elected candidates belonging to the gender more represented by others belonging to the gender less represented, in the event a gender should be less represented than what provided by the regulations in force as a consequence of slate vote;

- should it not be possible in whole or in part to appoint the directors according to the above rules, or in case of directors appointed as a consequence of the earlier termination from office of directors or as a consequence of the resolution to increase their number, the shareholders' meeting resolves by the simple majority of votes, in compliance with the regulations in force, including the rules that ensure the gender balance;
- in the event of replacement of directors pursuant to art. 2386, 1st paragraph of the civil code, the appointment shall be effected in compliance with the regulations in force, including the rules that ensure the gender balance.

No provisions exist for the amendments of the bylaws other than those provided by the law and the applicable regulations, being understood that pursuant to art. 2365, paragraph 2 of the Civil Code, the Board of Directors is vested with the non-exclusive competence on (i) the resolutions on mergers by incorporation of companies in which the company holds the whole share capital or at least ninety percent of the share capital; (ii) the resolution on reduction of share capital in case of withdrawal of shareholders; (iii) the amendments of the bylaws to make them consistent with law provisions; (iv) the transfer of the registered office within the national territory, (v) the setting-up, change or closing-down of secondary offices.

m) Powers to increase the capital (article 123 bis, paragraph 1, letter m), TUF)

The extraordinary shareholders' meeting of May 12, 2017, renewing the powers already granted by the shareholders' meeting of May 11, 2012, granted the board of directors, for a length of 5 years from the shareholders' meeting resolution, the power to increase, in one or successive tranches, also separately, for a consideration or without consideration, the capital up to a maximum amount of 25,000,000 euro, through the issue of ordinary and/or savings shares, also excluding the pre-emption right, in the case of capital increase for a consideration, in the following circumstances:

- pursuant to article 2441, 4th paragraph, first sentence, of the civil code against contribution of companies and/or equity interests in companies whose activities fall within the corporate purpose or are similar to or complementary to;
- pursuant to article 2441, 5th paragraph of the civil code in favour of Italian or foreign institutional investors or of companies whose activities fall within the corporate purpose or are similar to or complementary to, when the company's interest requires it;
- pursuant to article 2441, 5th paragraph of the civil code in order to assign the conversion right to bonds already issued in favour of qualified Italian or foreign investors and therefore at the service of the conversion option into ordinary and/or savings shares of holders of the aforementioned bonds, when this is requested by the company's interest.

The directors, without prejudice to their competence to issue bonds under the law, have also the power, for a length of 5 years from the resolution of the extraordinary shareholders' meeting of May 12, 2017, to issue, in one or more tranches, also separately, convertible bonds and/or warrants up to a maximum amount of 300,000,000 euro, ensuring, however, that the amount issued through each tranche does not exceed the limits imposed by the law,

with the additional power for the corresponding capital increase, also excluding the pre-emption right pursuant to article 2441, 5th paragraph of the civil code, and in this case in favour of Italian or foreign institutional investors or of companies whose activities fall within the corporate purpose or are similar to or complementary to, when the company's interest requires it as well as pursuant to article 2441, 4th paragraph, second sentence, of the civil code, within the limits hereunder stated.

The same shareholders' meeting granted the board of directors, for a length of 5 years from the shareholders' meeting resolution, the additional power to increase for a consideration, in one or more tranches, also separately, the capital up to an additional maximum amount of 12,000,000 euro, through the issue of ordinary and/or savings shares, also subject to the issue of convertible bonds and/or warrants, and/or in order to assign the conversion right to bonds already issued in favour of qualified Italian or foreign investors and therefore at the service of the conversion option into ordinary and/or savings shares of holders of the aforementioned bonds, excluding the pre-emption right, pursuant to article 2441, 4th paragraph, second sentence of the civil code, in favour of Italian or foreign institutional investors or of companies whose activities fall within the corporate purpose or are similar to or complementary to.

n) Authorization to the purchase of treasury shares (article 123 bis, paragraph 1, letter m), TUF)

The shareholders' meeting of May 12, 2017 authorised the board of directors to buy back, in one or more tranches, treasury shares up to a maximum of #4,000,000 ordinary shares and/or savings shares (in addition to those held at the date of the shareholders' meeting) for a purchasing price ranging from a minimum of 0.60 euro to a maximum of 17 euro for savings shares and 30 euro for ordinary shares or the highest price allowed by the market general rules approved by Consob by resolution no. 16839 of 19 March 2009 (or by any market general rules completing, modifying or replacing the aforementioned market rules), in case these rules should be adopted by the company.

The maximum overall amount of purchase and total and/or partial exercise of the pre-emption right is 120,000,000 euro, to be withdrawn from the reserve Merger Surplus.

This authorization entitles the board of directors also to dispose of treasury shares in portfolio and to use them (i) by means of transfer with cash consideration and in this case at a minimum price not lower than the value corresponding to the official average of the trading prices recorded in the calendar month prior to the transaction minus 10%, or to a consideration not lower than the cheapest price allowed by the market general rules approved by Consob by resolution no. 16839 of 19 March 2009 (or by any market general rules completing, modifying or replacing the aforementioned market rules), in case these rules should be adopted by the company; or (ii) for any distribution to directors and employees of the company or its subsidiaries pursuant to art. 2359 of the civil code as well as for the allocation, if any, to shareholders, also in the form of a dividend, and in these cases they may be transferred even without consideration; or (iii) as consideration in extraordinary

transactions, also of equity interest swaps, exchange, contribution or conversion of bonds already issued or of any future issuance, and in this case according to economic conditions and criteria established by the administrative bodies regarding the modalities of disposition and to the best interest of the company.

Moreover the company can avail itself of the procedure for the purchase of treasury shares provided by the market rules approved by Consob by resolution 16839 of 19 March 2009 (or by any market general rules completing, modifying or replacing the aforementioned market rules).

The authorization to the purchase and/or the exercise of the pre-emption right lasts 18 months from the date of the shareholders' meeting resolution.

As at the date of year end 2017 and at the date of this report, the company owns #50,000 ordinary treasury shares and #29,290 savings treasury shares.

The board of directors, in the meeting held on the date of this report, resolved to request the shareholders' general meeting again to assume the resolution of purchase and disposal of treasury shares for an additional length of 18 months, authorising the board of directors to purchase up to a maximum #7,000,000 ordinary shares and/or savings shares (in addition to those held at the date of the shareholders' meeting) for a purchasing price ranging from a minimum of 0.60 euro to a maximum of 18 euro for savings shares and 30 euro for ordinary shares (and therefore to a maximum of 210,000,000 euro countervalue) and to dispose of own shares held or acquired by virtue of the authorizing resolution.

o) Direction and coordination activities (article 16 of Consob Regulation no. 20249/2017)

Buzzi Unicem is not subject to direction or coordination activities by companies or entities, since the company's management decisions and strategic and operational guidelines are defined in full autonomy with no directions from the holding company.

Part III – Information on Buzzi Unicem corporate governance system and on the adoption of the Code of Conduct

1. Board of directors

1.1 Role and competence of the board of directors

The board of directors is the collective body for the government of the company vested with all powers relating to the ordinary and special management of the company.

The board of directors primarily performs a guideline and control function with respect to the general activities of the company and of its group, without prejudice to the tasks assigned by law to the various entities of the group.

Specifically, the board of directors inter alia shall:

- a) adopt the company's rules of corporate governance and lay down the guidelines for the group's corporate governance and assess the adequacy of the group's organizational structure, particularly as regards the internal control and risk management system;

- b) establish the strategic, operational and financial plans of the company and the group, with special reference to the subsidiaries of strategic relevance, identified on the basis of book value of the equity investment compared to Buzzi Unicem SpA's assets;
- c) delegate and revoke powers to the Chairman, the Vice Chairmen, the Managing Directors and, where appointed, the executive committee, establishing limits and manner of exercising them;
- d) approve the transactions that, by virtue of the limits of the powers delegated as stated in paragraph 1.5. below, are the exclusive responsibility of the board of directors;
- e) resolve on the transactions having a significant impact on the company's profitability, assets and liabilities or financial position, meaning those for which Buzzi Unicem SpA is obliged to inform the market of the communications required by the regulations in force. As for transactions with related parties, please refer to article 4.1 below;
- f) examine the transactions having a significant impact on the group's profitability, assets and liabilities or financial position, which are considered to be those which Buzzi Unicem S.p.A. is required to disclose to the market according to the rules in force. However it is pointed out that the management activity on the subsidiaries is assigned to Buzzi Unicem SpA's executive directors, who sit on the major subsidiaries' board of directors and act within the directions established by Buzzi Unicem SpA's board of directors, to which they periodically refer;
- g) determine, after consulting the statutory auditors' committee, the remuneration of the directors appointed to special positions within the company and, should not the shareholders' meeting have already provided, allocate the total amount to which the single members of the board are entitled;
- h) supervise the general performance of the company with special reference to transactions involving related parties, paying special attention to the information received from the executive directors;
- i) report to shareholders at general meetings on the activity performed and scheduled, in observance of the rules on inside information;
- l) appoint and revoke the manager responsible for preparing the company's financial reports. Moreover, the bylaws, pursuant to art. 2365, 2nd paragraph of the civil code, attribute to the non-exclusive competence of the board of directors (i) the resolutions on mergers by incorporation of companies in which the company holds the whole share capital or at least ninety percent of the share capital; (ii) the resolution on reduction of share capital in case of withdrawal of shareholders; (iii) the amendments of the bylaws to make them consistent with law provisions; (iv) the transfer of the registered office within the national territory, (v) the setting-up, change or closing-down of secondary offices.

The board of directors meets at regular intervals, at least quarterly, as provided by article 15 of the bylaws in force.

Moreover the bylaws require the directors to provide, at least quarterly, the board of directors and the statutory auditors' committee, with adequate information on the activities performed on the exercise of their delegated powers, on the most significant transactions carried out by

the company or its subsidiaries, especially on those in which they have a personal interest or an interest on behalf of third parties and those influenced by the subject that may exercise the activity of management and co-ordination.

To this purpose the board of directors has prepared and approved a quarterly report scheme which the executive directors have to render to the board itself and to the statutory auditors' committee about management activities and transactions having a significant impact on the company's profitability, assets and liabilities or financial position (especially transactions concerning purchase or sale of equity interests, companies, real estate and joint ventures for an amount exceeding 5 million euro, company's re-organization or restructuring and major corporate transactions) of the company and its subsidiaries.

Based on the reports received, the board of directors has periodically assessed the operating performance of the group and the company.

During 2017 the board of directors approved the group's five-year economic plan, examined the strategic guidelines and resolved on the main transactions having a significant impact on the company's profitability, assets and liabilities or financial position.

1.2 Structure of the board of directors

The company's board of directors is made up of a variable number of members from a minimum of 7 up to a maximum of 15. The number of members is resolved by the shareholders' meeting.

The board of directors in office until May 12, 2017, which ceased after expiry of the deadline, was made up of 13 directors in the persons of: Enrico Buzzi (Chairman - executive), Veronica Buzzi (Vice Chairman – non-executive), Michele Buzzi (Managing Director - executive), Pietro Buzzi (Managing Director - executive), Paolo Burlando (non-executive), York Dyckerhoff (non-executive - independent), Elsa Fornero (non-executive - independent), Linda Orsola Gilli (non-executive - independent), Aldo Fumagalli Romario (non-executive - independent), Gianfelice Rocca (non-executive - independent), Maurizio Sella (non-executive - independent) and Marco Weigmann (non-executive), all of them elected from the list presented by the controlling shareholders Fimedi SpA and Presa S.p.A., and Oliviero Maria Brega (non-executive - independent) elected from the list presented by a group of international and national institutional investors, owners of 1.296% of the entire voting stock.

The board of directors presently in office, appointed by the ordinary shareholders' meeting of May 12, 2017, is made up of 12 members. The current composition follows the termination due to death on December 23, 2017 of director Oliviero Maria Brega and his replacement pursuant to art. 2386 of the civil code with Luca Dal Fabbro, following the resolution of the board of directors of February 8, 2018.

The mandate of the board will expire on the date of the meeting called to approve the financial statements as at December 31, 2019, except for director Luca Dal Fabbro, who, pursuant to art. 2386 of the civil code, will remain in office until next shareholders' meeting.

The following table reports the current composition of the board with reference to the respective positions and qualifications of each director:

Name and Surname	Position	Qualification
Enrico Buzzi	Chairman	Executive
Veronica Buzzi	Vice Chairman	Non-executive
Michele Buzzi	Managing Director	Executive
Pietro Buzzi	Managing Director	Executive
Paolo Burlando	Director	Non-executive
Luca Dal Fabbro	Director	Non-executive - independent
Elsa Fornero	Director	Non-executive - independent
Aldo Fumagalli Romario	Director	Non-executive - independent
Linda Orsola Gilli	Director	Non-executive – independent
Antonella Musy	Director	Non-executive - independent
Gianfelice Rocca	Director	Non-executive - independent
Maurizio Sella	Director	Non-executive - independent

It should also be noted that Alessandro Buzzi (previously Chairman of the company from 2003 to 2014) was awarded the post of Honorary Chairman of the company, and he does not sit on the board.

Attached to this report are the curricula of the members of the board of directors, which report exhaustive information about them on both a personal and professional level.

Please find below information about the positions currently held by the directors in other companies listed on regulated markets, including foreign markets, as well as those held in financial companies, banks, insurance companies and large companies not belonging to Buzzi Unicem group:

Name and Surname	Company	Position in the company

The appointment of the board of directors took place by slate voting, as specified in art. 13 of the bylaws.

Specifically, for the appointment purposes, two lists were deposited by the submittal deadline and under the terms provided by the bylaws:

- the one submitted by the controlling shareholders Fimedi S.p.A. and Presa S.p.A, jointly holders, at the list's submittal date, of 58.634% of the voting stock, from which all the directors were taken, except for the last mentioned in the list (York Dyckerhoff), due to the fact that one of the directors must be appointed from the minority list as required by the bylaws;
- the one submitted by a group of international and national institutional investors, which in total are holders of 1,10015% of the voting stock, from which the director Oliviero Maria Brega was taken.

As mentioned before, following the death of director Oliviero Maria Brega, the board of directors on February 8, 2018, upon proposal of the Management Committee (body made up

of representatives of Italian and foreign institutional investors), replaced him pursuant to art. 2386 of the civil code, by appointing independent director Luca Dal Fabbro.

Both lists, complete with the documents required by Consob Regulation no. 11971/99, were deposited at the registered office and were made available to the public in accordance with the procedures and terms of the laws and bylaws.

The lists deposited with the list of their candidates as well as the outcome of the vote at the meeting are available on the company's website www.buzziunicem.it Investor Relations section /Shareholders' Meetings.

The shareholders' meeting which appointed the board of directors in office authorised a partial derogation to the ban on competition provided by art. 2390 of the civil code, limited to the assumption of offices as director or general manager in subsidiary, associated or investee companies of Buzzi Unicem SpA, directly or indirectly controlled, or in companies controlled by the aforementioned associated companies of Buzzi Unicem.

Moreover the directors have been advised to inform the board of directors in the event they should take up such activities in other companies than the ones which are directly or indirectly controlled by Buzzi Unicem, in order to enable the board of directors to properly assess the situation and, if need be, inform the first useful shareholders' meeting on possible critical aspects, if any.

Diversity policies

The board of directors of November 9, 2017 approved the policies on diversity with regard to the composition of the corporate bodies, which are indications aimed at ensuring, as far as possible and without prejudice to the competence of the shareholders' meeting, a diversity deemed optimal in relation to the achievement of the correct fulfillment of the functions due to the administrative and control bodies.

These policies, in short, provide indications regarding the professional features that members of the corporate bodies should have in order to ensure levels of competence and professionalism suitable to the group's complexity and international dimension.

The board of directors believes that the members of the corporate bodies should have developed training and professional process being able to provide a relevant managerial competence, preferably with an international background (not necessarily referring to foreign nationality, but having a strong experience abroad and with a "global" vision).

With regard to the composition of the board of directors, there should be at least 4 of the following managerial and professional figures that:

- have acquired business or management experience in the industrial, services, credit or financial sectors generally operating in an international context with dimensions and complexities similar to those of the company;
- have acquired experience in boards of directors of companies, preferably listed ones, of significant size and/or complexity;
- exercise professional activities in fields pertaining to the company's product and its applications or in fields pertaining to the economic, legal, financial, credit or environmental sectors;

- are university professors in economic, legal, financial, technical-scientific subjects pertaining to the activity in which the group operates or to the environmental sector;
- have developed in particular experience concerning control, risk management as well as auditing, legal and corporate compliance.

These policies also provide information on the representation of gender and the personal and seniority characteristics of the members of social bodies.

As regards the representation of gender, the board of directors, in sharing the aims and objectives pursued by the legislation on so-called "gender quotas", believes that the statutory provisions guarantee adequate and optimal diversity. The board of directors reserves the right to adopt further guidelines starting from the moment in which the legislation on gender diversity should be no longer applicable.

With regard to age diversity, the board of directors hopes that in the lists of candidates for the office of director no persons who have reached the age of eighty at the time of taking office will be indicated. Furthermore, in order to ensure an adequate knowledge of the company and its business sector, as well as the pursuit of medium-long term objectives, the board of directors deems it appropriate to maintain an adequate number of members in the corporate bodies that have held the respective offices for more than one term.

The board of directors believes that the implementation of these policies is remitted to the choices of shareholders and the shareholders' meeting, giving indications to the shareholders on the policies adopted during the explanatory reports to be submitted to the shareholders' meetings called to resolve the renewal of the corporate bodies or any changes in the composition of the corporate bodies, as part of an eminent moral suasion.

With regard to the verification of the results of these policies, the board of directors considers that, through the self-assessment process of the board and its members carried out every year on the basis of the provisions of the Code of Conduct, the adequacy of the composition of the board can be monitored. and the contribution that diversity gives to the debate, to management decisions and to the critical sense towards executive directors can be evaluated.

Maximum number of positions held in other companies

The board of directors, unanimously, has not deemed to issue guidelines with regard to the maximum number of positions as director or member of the statutory auditors' committee which could be held in other Companies listed on regulated markets, including foreign markets, or in financial companies, banks, insurance companies and large companies, thinking that the single members of the board of directors would be the most fit to assess the engagements deriving from their other assignments in the above companies and their respective time availability.

Board evaluation

The board of directors has provided to assess the size, the composition and the functioning of the board of directors and its committees, as well as the number and functions of the Committees.

The self-assessment process was carried out through a specific questionnaire, filled in by the members of the board of directors. The results were submitted to the board of directors in the meeting held on November 9, 2017. Being in the initial phase of the mandate, the self-assessment activity, was directed to an overall evaluation of the composition and of the general functioning of the Board of Directors and its Committees.

The process especially touched the aspects relating to the structure of the board, which is articulated in executive, non-executive and independent directors as regards their number and expertise as well as some issues regarding the works organisation and the analysis of the board's internal committees.

The questionnaire was also modified and implemented in order to introduce a series of questions aimed at the self-assessment of the individual members of the board of directors on the professional knowledge and skills as well as at the contribution that individual directors believe they can give about the determination of company strategies and decision making.

Based on the outcome of the self-assessment process, the board of directors, taking into account also the comments and recommendations ensuing from the questionnaire has deemed proper the size, composition and functioning of the board of directors and its internal committees, as well as the managerial and professional figures sitting on the board of directors.

1.3 Lead independent directors

As for the previous term of office of the board of directors, no need has arisen to designate a lead independent director since the Chairman, although granted major management powers, as indicated further below, is not the main responsible officer for the management, such responsibility being subdivided among the different legal representatives with management powers and he is not the person controlling the company. Moreover, as of now, the majority of independent directors has not requested the appointment of the lead independent director.

1.4 Independent directors

The board of directors unanimously decided to apply the independence criteria required by the Code of Conduct, except for the criterion relating to the presence on the board for nine years out of the last twelve years. The board believes that the continued stay in the role of director not only does not affect independence, but rather permits the directors to acquire information and specific experience about the company which allow them to execute their functions as independent directors with great effectiveness and competence.

The board of directors, in the meeting held after the appointment and in today's meeting, has provided to assess, on the basis of the information supplied by the single directors and of the available information, the degree of independence of the directors themselves, communicating the outcome of these assessments by issuing a press release to the market.

Following last assessment, which was carried out at the date of this report, 7 non-executive members (Luca Dal Fabbro, Elsa Fornero, Aldo Fumagalli Romario, Linda Orsola Gilli, Antonella Musy, Gianfelice Rocca, Maurizio Sella), have been classified as independent (and

consequently the majority of the directors in office) in relation to the criteria stipulated by the Code of Conduct, as applied by the company, as well as in accordance with the combined provisions of Articles 147 ter, 4th paragraph, and 148, 3rd paragraph, of Legislative Decree no. 58/98.

Should the members of the board of directors change, the board of directors provides to assess the independence of each new member, on the basis of the information supplied by the same and of the available information, and communicates the results of the assessments to the market by means of the press release issued on the occasion of the meeting. This event occurred when director Oliviero Maria Brega was replaced by director Luca Dal Fabbro, i.e. with the resolution of the board of directors on February 8, 2018.

Pursuant to the principles stated in the Code of Conduct, the independent directors met at least twice in the year 2017 in special extra meetings, different from those of the board of directors and without the other directors.

The statutory auditors' committee, in the framework of the duties attributed to it by the law, has ascertained the correct application of the assessment criteria and procedure adopted by the board of director for evaluating the independence of its members. The result of such control is hereunder reported:

“The statutory auditors’ committee has ascertained the correct application of the criteria adopted and of the process implemented by the board of directors to evaluate the independence of its members as well as the correct application of the related assessment procedure.

The committee deems that such assessment criteria and procedure are essentially and as a whole, consistent with the spirit and the letter of the Code of Conduct. Consequently, no objections are raised by the statutory auditors’ committee”.

1.5 Meetings of the board of directors

In the year 2017, the board of directors met 9 times. The meetings had an average length of around 3 hours. Such length of time was deemed adequate and properly articulated with regard to the issues on the agenda, during the board of directors' self-assessment process.

In the year 2018 the board of directors is expected to meet 6 times, considering the meetings held till the date of this report.

In preparation of the meetings of the board of directors, the Chairman communicates the agenda and provides the directors with the documentation and information needed to enable them to make a knowledgeable and informed contribution to the board discussion. The related documents are made available to the directors and the statutory auditors two or three days prior to the meetings, depending on the different items on the agenda. Such term was deemed adequate during the board of directors' self-assessment process.

The documents are made available by upload into a special protected web application which is only accessible to directors and statutory auditors by a password which has been created and is known only by themselves.

As a rule, the documents relating to the meetings of the board of directors held during the year 2017 were sent in the manner and within the time-limit here above mentioned.

Induction Program

Within the initiatives aimed at providing directors and statutory auditors with adequate knowledge of the business sector in which Buzzi Unicem operates, of the business dynamics and their evolution, as well as of the regulatory and self-regulatory framework of reference, the company, after the renewal of the mandate to the board of directors and the statutory auditors' committee, organized, in October 2017, a special meeting (attended by directors and statutory auditors) to study the impact and consequences on the environment and on the health of production activities of the company and the group, also with the participation of external experts in the environmental sector.

In the remainder of the mandate, also based on the ideas emerged during the self-assessment of the board of directors, further sessions will be organized with the aim of updating and informing board members and statutory auditors about the main activities of the group.

Moreover, the board of directors' meetings are attended by the heads of the concerned corporate functions, when the Chairman deems it proper or on request of one or more directors for an in-depth analysis of specific issues on the agenda. In 2017 managers in charge of the concerned corporate functions did attend the meetings of the board of directors. In addition, at one of the meetings of the board of directors, special focus was dedicated to the presentation of the activity, organization and main economic, asset and financial figures of Dyckerhoff group (operating in Central and Eastern Europe) by the CEO of that area.

Pursuant to art. 15 of the bylaws, the board of directors is called by the Chairman or by one of the Vice Chairman, whensoever the same deems it proper or on request of a managing director or the majority of the board members.

The call is effected through a written notification sent at least five days prior to the scheduled date of the meeting, save urgencies.

1.6 Role of the Chairman of the board of directors, of the Vice Chairman and of the Managing Directors

The board of directors, in the meeting of May 12, 2017, following the appointments resolved by the ordinary shareholders' meeting of same date, provided to confirm Enrico Buzzi as Chairman, Veronica Buzzi as Vice Chairman and Pietro Buzzi and Michele Buzzi as Managing Directors. The same board of directors assigned to the Chairman and the two Managing Directors the same powers as granted by the previous mandate, as below listed:

- powers to perform operations on securities and equity holdings, real estate, companies or lines of business, transactions and in general management activities up to an amount limit of euro 50 million with single signature and euro 100 million with joint signature with at least one among the Chairman or the Managing Directors. Moreover they are delegated the powers to perform financial and banking transactions (excluding transactions on

futures and granting of sureties on behalf of third parties that are not subsidiaries or associated companies) up to an amount limit of euro 100 million euro with single signature and of euro 200 million euro with joint signature with at least one among the Chairman or the Managing Directors.

Both Managing Directors have the same powers listed above.

The delegated bodies are also vested with the function of establishing the organisational, administrative and accounting structure of the Company and the Group.

As of now, no situation exists in which the Managing Directors or other directors with delegated powers hold the position of director in another listed company not belonging to the group whose chief executive officer is another Buzzi Unicem's director.

Moreover, the board of directors in its meeting of May 12, 2017, confirmed to the Chairman, within the powers delegated to him, the following duties:

- operational coordination of ready-mix concrete operations;
- executive supervision of group's Mexican operations;
- group's foreign operations operational coordination.

The same board of directors of May 12, 2017 confirmed to Director Paolo Burlando the following duties:

- assistance to the managing directors for international development projects and initiatives concerning group's operations;
- representation in group's associated companies, also abroad;
- co-ordination of the corporate and financial extraordinary transactions.

Pursuant to art. 21 of the bylaws the Chairman, the Vice Chairman and the Managing Directors have the legal representation of the company.

As provided by art. 15 of the bylaws in force the Chairman and the Vice Chairman are assigned the power to call the board of directors' meeting.

The Chairman moreover shall preside the meetings of the board of directors and act as moderator.

The decision to grant management powers to the Chairman stems from the special competence, standing and expertise of the same in relation to the group's activities and based on the fact that, nevertheless, the board of directors believes that the transfer of powers to the chairman does not negate either the guarantee function that the same holds or the debate within the board itself.

Succession plans

The board of directors, following an appropriate assessment, has deemed it not necessary to adopt succession plans for the replacement of executive directors, if any.

2. Internal Committees of the board of Directors

2.1 Nomination Committee

The board of directors, after proper evaluation, has deemed, unanimously, not to establish a nomination committee considering that both the role and high standing of the independent and non-executive directors and the board of directors' self-assessment process enable it to

fulfil the tasks the Code of Conduct assigns to the Nomination Committee, especially in light of the composition of the board of directors, of which the majority of its members is represented by independent directors.

The board of directors hopes that the proposed candidates will be identified for their professional experience and qualifications as well as for their independence of judgement and assessment and however, based on the results of the self-assessment, has decided to express its opinion (published as part of the explanatory memorandum for the meeting to appoint the board of directors held on May 12, 2017) on the professional figures whose presence inside the board of directors is deemed proper.

Moreover, as previously stated, the board of directors has deemed it not necessary to adopt succession plans for the replacement, if any, of executive-directors.

2.2 Remuneration of Directors and Managers with strategic duties and remuneration Committee

Buzzi Unicem's remuneration policy aims at attracting, keeping and motivating qualified people having skills and expertise adequate to the management requirements of the company or the group to which the company belongs. This aim is pursued in a logic of cautious management and sustainability of costs and results over time and with a view to aligning the management interests with those of the company and the shareholders so as to create value over the medium-long term.

The last amendment of the policy, which it was accounted for in last year's corporate governance report, was approved by the board of directors on November 10, 2015. During 2016 and 2017, the policy was not modified by the Board of Directors.

The guidelines of Buzzi Unicem's remuneration policies are reported here below. For further information, please refer to the information contained in the Remuneration report pursuant to art. 123 ter of T.U.F.

Board of Directors, non-executive Directors and Statutory Auditors' Committee

The board of directors' remuneration is established by the general shareholders' meeting and within the board of directors it is equally subdivided among all the directors, allotting a double share to the Chairman by virtue of the general function of representation assigned to him and with the exception of the Managing Directors who are remunerated in their capacity of employees of the company.

The remuneration of the non-executive directors is independent of the economic performance of Buzzi Unicem. Moreover the non-executive directors are not recipients of share incentive plans.

The remuneration of the Chairman and the Vice-Chairmen of Buzzi Unicem SpA who are entrusted with special duties, as well as that of the Directors with special tasks or called to be members of Committees, is resolved by the board of directors upon independent directors' proposal and subject to the opinion of the Statutory Auditors' Committee.

The Statutory Auditors' remuneration is determined by the shareholders' general meeting as a fixed amount for the duration of the assignment, plus reimbursement of expenses incurred during the assignment.

Executive Directors and other Managers with strategic duties

The two Buzzi Unicem SpA's Managing Directors are paid in their capacity of executives employed with the company and they also receive fees related to positions held in subsidiaries. Overall, the Managing Directors' remuneration does not exceed the average market level for companies of similar size and structure.

The remuneration of the Managing Directors and of the other Managers with strategic duties identified in the Managing Director and the General Manager (where appointed) of the subsidiaries Dyckerhoff, RC Lonestar and Alamo Cement Company, in the heads of Buzzi Unicem Corporate Managements that have coordination and control functions within the group (Manager responsible for the preparation of the financial reports, Finance and Treasury, Sustainability and since 2017 also Group Technical Management) comprises a prevailing fixed portion and a variable portion linked to the company's financial results and for the other Managers with strategic duties also to the achievement of single targets.

The fixed portion is sufficient to remunerate the services of the Managing Directors and the other Managers with strategic duties, should the variable portion not be paid due to failure in achieving the targets linked to such portion. Maximum limits are set for the variable portion of the remuneration.

The remuneration variable portion of the Executive Directors and the other Managers with strategic duties is based on a Management by Objectives (MBO) mechanism, as follows:

- the variable component is objective, not discretionary, and it depends on the achievement of annually pre-fixed corporate targets (in part referred to as a two-year calculation basis) and related to other corporate efficiency indicators, and for the other Managers with strategic duties also of single targets, each with a different weight, the measurable economic ones prevailing;
- for each of the single or corporate targets, a minimum threshold exists, under which the variable remuneration is not due and, similarly, a maximum threshold is set.

In particular, the individual targets of the Manager responsible for preparing the financial reports and the Head of Internal Audit are consistent with the functionality of the respective areas of responsibility.

However at least one of the assigned objectives must be related to issues regarding environmental improvement, work safety or other issues related to the company's sustainability.

The fixed portion of the remuneration of the Managing Directors and the other Managers with strategic duties is prevailing over the variable one so as to ensure the consistency of the remuneration policy with the aim of pursuing the company's long-term interests as well as with a proper management of corporate risks.

The variable portion of the Managing Directors and of the other Managers with strategic duties is regulated by monetary way.

The payment of the variable portion is made after the approval of the financial statements referring to the year in respect of which the variable portion is accrued. A further postponement is not provided in view of the fact that the company management is a stable expression of the controlling shareholders and represents a direct part in social management, ensuring the alignment of interests between management and shareholders after a complete evaluation of the medium to long term risks.

To the extent required by applicable regulations and collective agreements, the variable portion of the remuneration is subject to refund, in whole or in part, to the company that paid it, in case it was calculated on the basis of data that proved thereafter to be clearly erroneous. Nevertheless, the refund is provided only in case the erroneous figure, on the basis of which the variable portion of the remuneration was calculated, deviates from the correct value by more than 5%.

Nevertheless the refund of the variable portion of the remuneration is provided in every case in which it was calculated on the basis of fraudulent behaviour ascertained, without prejudice to other remedies available to the company under law or contract.

At present no stock-based remuneration plans exist for directors or employees.

No special indemnities are provided in the event of earlier termination of directorship or failure of renewing it or earlier termination of the employment relationship. The local law provisions apply, such as the severance indemnity and what provided by the respective collective agreements for permanent workers.

The board of directors has unanimously decided not to establish a remuneration committee since the role and high standing of the independent and non-executive Directors enable, during the board's meetings, a reliable and independent analysis about the policy for the remuneration of the Managing Directors and the other Managers with strategic duties. Moreover, as mentioned, the proposals for the remuneration of the executive Directors and Directors entrusted with special duties are submitted to the board of directors by the independent directors, who, above all, in the composition of the board of directors represent the majority of its members.

2.3 Control and Risk Committee

The board of directors, in the meeting of May 12, 2017, following the renewal of the corporate bodies, renewed the appointments of the control and risk committee, setting the number of members at 4, in the persons of the independent directors Maurizio Sella, Chairman, Oliviero Maria Brega and Aldo Fumagalli Romario and of the non-executive director Paolo Burlando. Following the termination of the office of Oliviero Maria Brega, the board of directors resolved to reduce the number of members of the Control and Risk Committee from 4 to 3, without prejudice to the other members. With such a composition the committee is guaranteed an adequate experience in accounting and finance.

The Control and Risk Committee is entrusted with the advisory and propositional duties provided by the Code of Conduct. As provided by the Regulation, the control and risk committee is charged with the task of supporting, through a proper preliminary investigation,

the assessments and decisions of the board of directors regarding the internal control and risk management system, which helps to ensure, among other things, the protection of company assets and the reliability of the information provided to the corporate bodies and to the market, as well as those concerning the approval of the periodical financial reports.

As part of the activity of supporting the decisions of the board of directors, the control and risk committee has been charged with the task of providing the board of directors with the prior opinion on the performance of the duties assigned by the Code of Conduct as regards internal control and risk management.

The committee's opinion shall be prior and binding in case of decisions regarding the appointment, revocation, remuneration and resource assignment of the head of the internal audit function.

Specifically, in supporting the board of directors, the committee shall:

- assess, together with the manager responsible for preparing the company's financial reports and after consulting the auditing firm and the statutory auditors' committee, the proper application of the accounting principles and their consistency for the purpose of drawing up the consolidated financial statements;
- express opinion on specific aspects concerning the identification of the main corporate risks;
- examine the periodic reports regarding the assessment of the internal control and risk management system and the most important ones prepared by the internal audit function;
- monitor the independence, adequacy and effectiveness and efficiency of the internal audit function, also with reference to Legislative Decree 231/2001 on the administrative liability of the company;
- request, if need be, the internal audit function to carry out inspections on specific operational areas, informing at the same time the chairman of the statutory auditors' committee;
- report to the board of directors on its activity as well as on the adequacy of the internal control and risk management system, at least once every six months, on the occasion of the approval of the full-year and half-year financial reports as well as at the end of its term of office for the period elapsing between the latest report and the end of its term of office;
- support, with a proper preliminary investigation, the assessments and decisions of the Board of Directors relating to the management of risks arising from adverse events;
- meet every year the Sustainability Manager who reports on sustainability issues relating to the activities of the Company and the Sustainability Steering Committee. During this meeting the Sustainability Report Guidelines are also analysed.

Moreover, the Committee shall:

- express its opinion on the actions not provided for by the audit plan and suggested by the officer appointed to run the internal audit in order to solve possible lacks of information or operational deficiencies and to take the corrective measures to remove anomalies, as they are identified and proposed.

- express, upon request of the board of directors, and after consulting the statutory auditors' committee, its opinion on the consultancy assignments entrusted to the auditing firm different from the one of account auditing;
- examine the frauds, if any, which might have been reported by group structures involving major positions in respect of the internal control and risk management system and express the suitable suggestions;
- carry out those additional preliminary investigations which the board of directors deems it useful to assign specifically for single occurrences or on a periodical or continuous basis.

As part of its functions, the Committee shall be entitled, inter-alia, to access the corporate information and departments necessary for the performance of its duties as well as, within the limits set by the board of directors, avail itself of external consultants that would directly report to it, in case specific knowledge and expertise are required which are not peculiar to the committee's members.

The meetings of the control and risk committee, duly recorded, are usually attended also by the Chairman of the Statutory Auditors' Committee or another statutory auditor appointed by him, in addition to other persons, as the committee deems it useful based on the issues on the agenda.

The control and risk committee, during the year 2017, met 6 times. The meetings had an average length of around 2 hours. In the framework of the meetings, the control and risk committee availed itself of the cooperation of the corporate functions deemed each time relevant, also to gather specific information. The Director in charge of the internal control and risk management system has always attended the meetings.

In the year 2018 the control and risk committee will meet 6 times. As at the date of this report, the committee has already met 2 times.

The president of the control and risk committee informs the first available board of directors regarding the meetings held by the same committee by providing an overview of the issues discussed during the meetings.

2.4 Sustainability Committee

The board of directors, following the evaluation carried out during the meeting held on August 3, 2016 regarding the readjustment of the corporate governance system to the changes made in July 2015 to the Code of Conduct, unanimously decided not to proceed with setting up a special committee dedicated to the monitoring of sustainability issues, in view of the fact that there is, at group level, an international committee (Sustainability Steering Committee), whose managers are part of the Buzzi Unicem group, which is responsible for identifying sustainability initiatives, including projects to reduce the environmental impact and to improve the dialogue with stakeholders, particularly with local communities.

This assessment was confirmed by the Board of Directors on May 12, 2017 following the renewal of the mandate on the same date.

The Sustainability Steering Committee avails itself of a centralized group structure (sustainability function) that is responsible for the implementation and/or the coordination of these initiatives.

Moreover, in all Buzzi Unicem Group companies some central sustainability representatives operate having specific responsibility for coordinating and interfacing between the central and local management function.

As specified in section 2.3, one of the tasks of the control and risk committee is that the person in charge of the sustainability function reports, at least once a year, to the same control and risk committee and to the board of directors, the sustainability issues relating to the exercise of the group activity and the dynamics of interaction with stakeholders as well as the structure of the annual Sustainability Report.

2.5 Committee for related party transactions

The board of directors, in its meeting of November 11, 2010, following the adoption of the Procedures on related party transactions, established the Committee for related party transactions, in charge of issuing the necessary recommendations required by Consob Regulation no. 17221/2010 as amended.

The board of directors, in the meeting of May 12, 2017, following the renewal of the corporate bodies, renewed the appointment of the Committee for related party transactions, confirming as regular members the independent directors Maurizio Sella, Chairman, Elsa Fornero and Aldo Fumagalli Romario.

For additional information please refer to paragraph 4.1 below.

3. Internal control and risk management system

3.1 Description of the key features of the internal control and risk system

The Internal Control and Risk Management System consists of the set of rules, procedures and organisational structures aimed at identifying, monitoring and managing the main risks. Such a system is integrated in the more general organizational structure and corporate governance adopted by Buzzi Unicem and based on the models and best practice in place nationally and internationally. It contributes to:

- promoting the efficiency and effectiveness of the business processes enabling an adequate management of the risks which might hinder the attainment of the company's business targets;
- ensuring the reliability of the financial information, of the internal and external reporting system through use of processes, procedures and systems which can generate a flow of reliable information both inside and outside the company;
- ensuring compliance with laws, rules, bylaws and internal procedures;
- safeguarding corporate assets and resources from inappropriate or fraudulent use or loss;

The internal control and risk management system based on the national and international best practices is organized on the following three degrees of control:

- 1st level: the operational functions perform "line" controls;

- 2nd level: the operational and administrative central functions perform also controls and risk assessments, apply methods and instruments to ensure the process regularity. They are responsible of and monitor the risks in their respective area of competence;
- 3rd level: the Internal Audit function verifies the structure and operability of the whole system.

The board of directors in the meeting of August 3, 2012, also in compliance with the provisions introduced by the Code of Conduct in 2011, approved the “Guidelines for the Internal Control and Risk Management System” which provide a description of the roles and responsibilities of the entities involved in the internal control and risk management system as well as the identification of the level of risks deemed consistent with the group’s strategic objectives.

These guidelines were amended by the board of directors on August 3, 2016 in order to implement the new Code of Conduct of July 2015, in particular by providing that, while defining the nature and level of risk being compatible with the business goals, it is necessary to also include an evaluation of the risks which can be significant in view of the middle-long term sustainability of business.

The board of directors has the ultimate responsibility of the internal control and risk management control and performs the functions as per art. 7.C.1. of the new Code of Conduct, with the help of the following corporate bodies identified within the board:

- the control and risk committee, which is entrusted with the functions as per paragraph 2.3. here above;
- the director in charge of the internal control and risk management system, identified in the group’s Chief Executive Finance, Pietro Buzzi, who is entrusted with the functions as per art. 7.C.4. of the Code of Conduct, in addition to the task of proposing to the board of directors the appointment, revocation and compensation of the head of the Internal Audit function.

Within the internal control and risk management system a decisive role is played by the function of Internal Audit. The above mentioned guidelines approved by the board of directors confer to the head of the Internal Audit function that has been confirmed in the person of Marco Fabruzzo, the functions as per art. 7.C.5. of the Code of Conduct. As stated by International Standards, the Internal Audit function performs its functions by virtue of a specific power assigned by the board of directors with the aim of defining the objectives, the organizational structure, the reliability, the reporting duties and requirements of the Internal Audit function.

The officer in charge of the Internal Audit function is not responsible for any operational areas and reports directly to the board of directors, and within the objectives of designing, implementing and managing the internal control and risk management system, constantly communicates with the Director responsible for the internal control and risk management system, without prejudice to the mutual independence of the respective functions.

The remuneration of the Head of Internal Audit has been lastly approved by the board of directors at its meeting of February 8, 2018, following the favorable opinion of the Control and Risk Committee.

The identification and management of the main risks is based on a Risk Management system implemented in the parent Buzzi Unicem SpA and the major subsidiaries, through which, on a half-year basis, the main risks are analysed and recorded.

In addition, the board of directors shall approve annually the group audit Plan prepared by the head of Internal Audit, after consulting the statutory auditors' committee and the manager in charge of the system of internal control and risk management. The plan for 2017 was approved by the board of directors at its meeting on February 9, 2017, while the plan for 2018 was approved at the meeting held on February 8, 2018.

Within the internal control and risk management system the company, several years ago, provided an internal whistleblowing system for employees of any irregularities or violations of the applicable law by adopting procedures which also apply to Italian and foreign subsidiaries (in compliance with the respective local regulations), which regulate the process of receiving, analysing and processing alerts and in particular those relating to cases of suspected fraud, violation of the applicable regulations, ethical and behavioural principles present in the Code of Conduct and Code of Ethics committed by employees or persons related to the company or the group. These procedures, among other things, provide for the anonymity of the informant and the confidentiality of processed data.

The board of directors, in the meeting held on the date of this report, upon prior favourable opinion of the control and risk committee, has assessed the group's organizational structure as adequate and effective, especially as regards the internal control and risk management system.

In addition, during the year 2017 the board assessed the organizational structure of the company and the group.

Within the scope of the control system, the board of directors adopted the Organization, Management and Control model pursuant to legislative decree 231/01, of which the Code of Conduct is an integral part.

The Supervisory body has been identified in the Internal Audit function of Buzzi Unicem SpA, is made up of 5 members and is under the direction of the Internal Audit manager. During 2017 the 5 members of Internal Audit, as the Supervisory Body, met 11 times with the aim of verifying the completeness of the various control activities.

The Model and the Code of Conduct are constantly updated so as to include the new criminal offences and identify the relevant sensitive processes.

The latest updated versions of the Model and the Code of Ethics, which incorporate the regulatory changes that occurred during 2015, were approved by the board of directors on February 10, 2016.

An outline of the features of the Model and the Code of Ethics, where the cases of offenses relevant for the Company are indicated, are available on the Company's website www.buzziunicem.it Investor Relations section/corporate governance.

3.2 Main features of the internal control and risk management system in place in relation to financial reporting

3.2.1 Introduction

As described, Buzzi Unicem's internal control and risk management system consists of a set of rules, procedures and organizational structures which, through an adequate process of identification, assessment, management and monitoring of the main risks, aims at allowing a sound and effective management of the company, consistent with the objectives set, ensuring the safeguard of the corporate assets, the efficiency and effectiveness of the corporate transactions, the reliability of the finance reporting and the compliance with laws and regulations.

The internal control and risk management system, as outlined, has thus a broad meaning: it is not limited to the simple accounting controls and financial reporting, but includes other key aspects of the business, such as the safeguard of resources, the operating efficiency and effectiveness, as well as the compliance with the corporate law, rules and policies.

In Buzzi Unicem, the Board of Directors is ultimately responsible for the internal control and risk management system and to this purpose it has established the Control and Risk Committee, identified the Director in charge of supervising the functionality of the internal control and risk management system and appointed the head of Buzzi Unicem's Internal Audit function.

As for financial reporting, the company has appointed the manager responsible for preparing the company's financial reports and has charged the Internal Audit function with the task of checking the compliance with the operating and administrative internal procedures, established in order to ensure a reliable, sound and timely financial reporting.

In laying down its internal control and risk management system, Buzzi Unicem has referred to the guidelines of COSO, Committee of Sponsoring Organizations of the Treadway Commission, adapting the same to its organizational situation.

As a section of the previously defined internal control and risk management system, it is thus possible to identify and extract a set of rules, procedures and structures aiming only at the management, preparation and control of financial reporting.

This section of the internal control and risk management system, made up of rules and procedures, has been designed and implemented in two steps.

Initially Buzzi Unicem has adopted control tools called "entity level controls" which describe and assess the risks and controls at company or group's level. They are periodically updated to account for the changes in risks and internal control environment. This environment encompasses the "Code of Conduct", the "Code of Ethics", the "Organizational Model ex Legislative Decree 231/01" and the high level procedures such as "Financial Closing", "Financial Investment Policy", "Non-routine transaction accounting" "Preparation of the management Report" "Procedures for transactions with related parties", "Operating Instructions to subsidiaries ex Law 262/05". In this context Buzzi Unicem implemented and distributed to the subsidiaries the group's "Accounting Manual". Similarly, general controls on the Information System Governance have been provided for as well as an e-mail box for the

employees to report possible infringements of the Code of Ethics and a “system of risk management”, supported by Group Procedure, which complete the internal control environment.

At operating level, Buzzi Unicem has thus formalized a set of procedures aimed at governing the activities of the company’s main managements and production units. The procedures which refer to processes affecting different managements, such as Purchasing or Sales, also for the administrative aspects, are monitored and updated by the Internal Control upon indication by the concerned Managements. Lower level procedures and operating instructions, issued by Managements, functions or production units, govern in detail the single activities.

Subsequently, and specifically for financial reporting, this section of the internal control and risk management system has been completed by introducing a set of risk and control matrices, reporting the risks, controls and tests for the main corporate processes. The matrix structure stems from the international best practices and the control identification is structured based on the potential risk level on the respective process. Risk and control matrices are monitored and updated by the Internal Audit jointly with the Legal Affairs and Administration Management.

The entity level controls, the procedures and the control matrices are thus geared to achieve reliable, sound and timely financial reporting.

3.2.2 Description of the main features of the internal control and risk management system in place in relation to financial reporting

Stages of the internal control and risk management system in place in relation to financial reporting

Identification of risks on financial reporting

Buzzi Unicem is a group operating through a lot of subsidiaries, not only in Italy but also in different foreign countries. Given the group’s complexity, in the first stage, which is carried out at the beginning of each year, the group’s relevant companies must be identified.

The process to determine the scope of the companies and of the “relevant” processes for their potential impact on the financial reporting aims at identifying, with regards to group’s consolidated financial statements, the balance sheet accounts, subsidiaries and accounting and administrative procedures that are to be considered as relevant, based on assessments made using qualitative and quantitative parameters.

Specifically, such parameters are set by:

- determining the quantitative threshold values by which to compare both the accounts concerning the consolidated financial statements and the related contribution of the subsidiaries within the group;
- making qualitative assessments based on the knowledge of the company’s situation and of the existing specific risk factors that the accounting and administrative procedures entail.

To the balance-sheet accounts classified as relevant are linked the underlying corporate processes in order to identify the controls suited to achieving the objectives of the internal control and risk management system for financial reporting.

In the second stage the significant processes are identified, which might have a material impact on financial reporting, and consequently are to be periodically tested. For the companies which are relevant under the quantitative aspect, the significant processes identified are as follows: Assets, Information Systems, Inventories, Goods and Services Purchasing, Sales, Treasury (also including the processes Financing and other financial assets and Equity investments), Tax, Personnel, Financial Reporting, Entity Level. The same companies are subject, on a three-year basis, to specific tests on the functioning of the internal controls. The Legal Affairs and Administration Management and the Internal Audit identify the processes to submit to test on an annual basis, thus all processes are tested at least once every three years. For some companies not included in the scope, but significant for typically qualitative aspects, some specific control checklists are completed which highlight, for the main processes, the internal controls implemented and the potential weaknesses, if any, to set right. To perform the tests, operating instructions are sent every year to the CFO of the main subsidiaries indicating the procedures to submit to updating analysis and functioning test. Procedures, control matrices and the tests which have been carried out are filed in the Internal Audit function of the parent company and the local functions of Internal Audit.

Risk assessment on financial reporting

The matrices report, for each process, the control principles which highlight the main risks that would jeopardize the achievement of the objectives of accuracy, reliability and timeliness of financing reporting.

A “control principle”, if applicable to the processes analysed, implicitly highlights the risk of error or fraud on financial reporting.

Identification and assessment of controls against identified risks

Within the matrices, the further step is represented by the identification of the control objective and by the description of the specific control implemented. As for the controls identified to respond to the most significant risks, specific testing methods have been adopted with broader sampling.

On the basis of the schedule defined with the Officer in charge and the operating instructions sent every year, the local Internal Audit structures as well as the parent Buzzi Unicem’s Internal Auditing, provide to update the procedures and the control matrices, in relation to the level of risk corresponding to each single process or part of it. The local Internal Audit functions and the parent company’s Internal Auditing for Buzzi Unicem and the other subsidiaries perform, during the year, the tests on the selected processes. Quarterly, each local auditing structure sends to the parent company a report which outlines all the activities performed in the period, included the one related to the typical tests of financing report. In the quarterly report the potential weaknesses found, if any, are highlighted as well as the corrective actions to take, if already identified. The completeness and reliability of the tests

performed by the local audit functions, as well as the corrective actions to the potential weaknesses are periodically checked directly by the parent company's Internal Auditing at the foreign subsidiaries' offices.

Consequently, through both the tests on the above significant processes (Assets, Inventories etc.) underlying the accounting entries and the checks on the continuous and proper application of the procedures "Financial Closing", "Financial Investment Policy" "Non-routing transactions Accounting", "Preparation of the management Report" and "Procedure for transactions with related parties", the risks of both non-intentional error and fraud which may affect financial reporting are brought under control.

Roles and functions involved

The parent company's Internal Auditing quarterly prepares a Report which includes for Buzzi Unicem and all the subsidiaries, the summary of the required adjustments to the procedures and the results of the test activities with the potential weaknesses found and the corrective actions suggested. The report is sent to the Chairman of the Board of Directors, to the Director in charge of supervising the functionality of the internal control and risk management system, to the Statutory Auditors' Committee, to the Control and Risk Committee and to the Manager responsible for preparing the company's financial reports and is being evaluated during specific meeting which are quarterly held by the same bodies.

Moreover, on an annual basis, once the testing activity on the procedure "Financial Closing" has been completed, the parent company's Internal Auditing prepares an additional report on the specific potential weaknesses related to financial reporting and send it to the Director in charge of the internal control and risk management system and to the Manager responsible for preparing the company's financial reports. The report outlines all the control activities performed throughout the year on the application of administrative and accounting procedures and the related test implemented. For the Italian and foreign companies, the same report certifies the reliability of the internal control and risk management system or the existence of anomalies, if any, such as to require a broader sampling, or of significant weaknesses in the administrative and accounting procedures or in the financial statements. On an annual basis as well, once the updating and testing activities locally performed have been completed, the foreign sub-holdings (Dyckerhoff, RC Lonestar, Alamo Cement Company and Corporación Moctezuma) send to the Manager responsible for preparing the company's financial reports a statement, signed by the CEO and the CFO. In this statement they confirm that the procedures for the preparation of their financial statements are adequate and have been effectively applied. They also certify that the financial statements comply with the international financial reporting standards, they correspond to the results, documented in the books and the accounting records and they provide a true and correct representation of the financial conditions, results of operations and cash flows, highlighting the weaknesses identified, if any. Similar statements are issued with reference to the half-year interim financial report.

The general structure of the bodies in charge of the internal control and risk management system is organic, well-balanced and present in the different countries of group's operations. In the parent company, the Director in charge of supervising the functionality of the internal

control and risk management system and the Manager responsible for preparing the company's financial reports monitor, through the head of the Internal Auditing, also in his capacity of Supervisory Body ex Legislative Decree no 231/01, and certify that the administrative and accounting procedures for the preparation of the financial statements are adequate and have been effectively applied. The head of the Internal Audit function, together with the parent Buzzi Unicem's structure, updates the procedures, the control matrices and perform the tests for the Italian operations, monitors and coordinates the activity of the different foreign functions in relation to the procedures adjustments, the control matrices and the testing activity. A symmetrical structure exists in the four foreign sub-holdings Dyckerhoff, RC Lonestar, Alamo Cement Company and Corporación Moctezuma. As already reminded, the local CEO and CFO monitor and certify to the Italian parent company that the administrative and accounting procedures for the preparation of the financial statements are adequate and have been effectively applied. In the subsidiary Dyckerhoff, the Auditing Officer performs the tests also for the companies in Germany, Luxembourg, the Netherlands and monitors those of Eastern Europe (Poland, the Czech Republic, Slovakia, Ukraine and Russia). To complete the local presence, structures have been set up in the following countries: Ukraine, the Czech Republic, USA, Mexico. These structures complete the Internal Audit activity performed centrally and cover respectively the following countries:

- Ukraine: associated companies in Russia and Ukraine
- The Czech Republic: associated companies in the Czech Republic, Poland, Slovakia and Hungary
- USA: associated companies in the United States of America
- Mexico: associated companies in Mexico

Following the Charter of Internal Auditing, which was recently approved by the board of directors on February 7, 2014, the local Internal Audit functions functionally refer to the Responsible Officer of Buzzi Unicem Internal Auditing. Local Internal Audit functions have been set up in Dyckerhoff for German, Luxembourg and Dutch operations, in Dyckerhoff Cement Ukraine and Russia, in Cement Hranice for the Czech Republic, Slovakia, Poland and Hungary, in Buzzi Unicem USA for the United States of America and in Corporación Moctezuma for Mexico. The local function of Internal Auditing in Dyckerhoff coordinates the activities of the local functions in Dyckerhoff Cement Ukraine and Cement Hranice.

At the American subsidiaries RC Lonestar Inc. and Alamo Cement Company, the Compliance Committees have been set up with the responsibility of coordinating compliance with corporate governance, risk management and the internal control system. They are equipped with their own regulations and made up of the Human Resources Manager, the Legal Department Manager and the Internal Audit Manager.

Among the responsibilities and duties of the Compliance Committees there is the supervision and implementation of all activities relating to compliance with the Code of Conduct of Buzzi Unicem, the Manual on Market Abuse and Privileged Information, as well as of conflicts of interest and of whistleblower reporting service. They carry out any investigations, through

Internal Audit, following the same whistleblower reports and organize staff training on the Code of Conduct and Antitrust.

On a quarterly basis, the Compliance Committees send a report summarizing the entire activity carried out during the period to the Board of Directors and the CEO of the American companies and to the Internal Audit of the parent company.

4. Company's procedures

4.1 Procedures for related party transactions and directors' interests

Pursuant to Consob Regulation no. 17221/2013 as amended, the Board of Directors of Buzzi Unicem SpA, in the meeting of November 11, 2010 - following the favourable opinion unanimously adopted by a Committee of independent directors especially formed to release such an opinion - adopted, effective as from January 1, 2011, the Procedures for related party transactions (hereinafter the "Procedures") aiming at ensuring substantial and procedural fairness of related party transactions, which replace the procedure for related party transactions already adopted by the company in March 2003 and amended in March 2006.

The Procedures were revised in the second half of 2013 and the Board of Directors of 8 November 2013, following the favourable opinion unanimously adopted by the Committee for related party transactions, resolved not to make any substantial amendment to the Procedures.

Subsequently, the Board of Directors of 7 February 2014 upon the favourable opinion unanimously adopted by the Committee for related party transactions, resolved to adjust the scope of related parties to make it consistent with the redefinition of managers with strategic duties based on the group's new organizational structure adopted following, inter alia, the delisting of the subsidiary Dyckerhoff.

In the second half of 2016 the procedures were subjected to the second triennial review and the board of directors on November 10, 2016, following the favourable opinion of the Committee for related-party transactions, which was approved unanimously, resolved not to change the procedures.

The Procedures, after having identified Buzzi Unicem's related parties pursuant to the definition contained in Consob Regulation, regulates the way to define and approve related party transactions based on their category.

Specifically, the transactions of "greater importance", identified as those which exceed the parameters provided by Consob Regulation, shall previously be approved by the Board of Directors, following the favourable opinion of the Committee for related party transactions, without prejudice to the possibility, in case of unfavourable opinion of the Committee, to approve such transactions provided that the same are authorized by the ordinary shareholders' meeting through the so called "whitewash" procedure. Moreover, in relation to transactions of greater importance, the company is required to make an information document available to the public.

The other transactions, unless they should fall within the residual category of transactions of smaller amounts – i.e. transactions for an amount equal or lower than 1,000,000 euro – are

defined as “of lesser importance” and may be carried out following the reasoned, non binding opinion of the above committee. Transactions of lesser importance concluded despite the unfavourable opinion of the Committee, require the quarterly release of a document containing an indication of the counterpart, the object and the consideration of the transactions.

To this purpose, the Board of Directors appointed a single Committee for transactions with related parties, in charge for the release of the required opinions both on transactions of greater importance and on transactions of lesser importance. The committee is made up of three independent directors, as regular members, and of two independent and/or non-executive directors, as alternate members. Procedures provide for a system of automatic replacement of the regular members by the alternate members, should one or more of the regular members be a “related director” in connection with the transaction on which the Committee is asked to express opinion, so as to ensure the proper composition of the committee in relation to the category of transactions on which the opinion is asked (presence of at least two independent directors and one non-executive director of the transaction of lesser importance and presence of three independent directors for the transactions of greater importance). Should the proper composition of the committee not be possible, the opinion on transactions of both greater importance and lesser importance shall be issued by the non-related independent board members or, failing that, by a non-related independent expert.

The above mentioned procedures apply also to the preparation by the Board of Directors of resolution proposals to submit to the shareholders’ meeting in connection with related party transactions pertaining to the shareholders’ meeting, as well as related party transactions carried out by the parent company Buzzi Unicem in case they are submitted to the approval or the prior consideration of Buzzi Unicem’s competent bodies.

Moreover the Procedures identify the cases which the procedures do not apply to, including specifically transactions of smaller amounts, resolutions on remuneration of executives with strategic responsibilities, regular transactions completed in market-equivalent or standard terms, transactions with or among subsidiaries and associated companies, provided that they do not involve significant interest of other company’s related parties.

Finally the Procedures have identified the amendments to the bylaws required for an effective application of some of the rules provided by the Procedures, especially in relation to the shareholders’ meeting competence and to some exemptions adopted. Such amendments to the bylaws were approved by the extraordinary shareholders’ meeting held on May 13, 2011.

As regards the situations in which a director is bearer of an interest on his behalf or on behalf of third parties, the Procedures confirm what already provided by the previous procedure in relation to the manner to inform the board of directors and the statutory auditors’ committee about the nature, terms, source and scope of the interest leaving to the discretionality of the concerned directors to abstain from the discussion and the voting on resolutions in relation to which they bear a specific interest.

The Procedures are available on the company website, www.buzziunicem.it Investor Relations section/Corporate Governance.

4.2 Reporting to the board of directors and disclosure of confidential information

As stated, in compliance with the bylaws in force, the executive directors at least quarterly provide the board of directors and the statutory auditors' committee with adequate information on the activities performed in the exercise of their powers, and on transactions having a significant impact on the company's profitability, assets and liabilities or financial position carried out by the company or by the subsidiaries, especially on those in which they have a personal interest or an interest on behalf of third parties and those influenced by the subject that may exercise the activity of management and co-ordination activities.

The board of directors, in the meeting of March 30, 2006, approved the Manual on market abuse and inside information which sets out the procedures and systems the group adopted in relation to the disclosure of inside documents and information concerning the company (namely the procedure for the disclosure of inside information adopted on March 27, 2002), updated in compliance with Consob regulations on Market Abuse.

The Manual was subject to a first review by the board of directors on August 3, 2016, following the entry into force of the EU Regulation no. 596/2014 (MAR Regulation) and was later updated during 2017.

This procedure, specifically, identifies in the Managing Directors the entities responsible for managing and handling inside information concerning the company and the group. They shall be assisted by the Legal Affairs and Administration (Affari Legali e Amministrazione) and Investor Relations' functions in all activities of corporate communication.

Moreover, after reporting the notion of inside information and the consequences deriving from the breach of the rules on market abuse, the Manual sets forth the method to identify inside information within the group and the procedures to follow in order to ensure the proper flow and the external communication.

The Manual regulates the preparation, maintaining and updating of Insider Lists based on the new procedure of the MAR Regulation.

4.3 Procedure on Internal Dealing

The board of directors, in the meeting of March 30, 2006, in compliance with the new provisions introduced by the amendments to Consob Regulation no 11971/99 following the Market Abuse Directive, adopted a new Procedure on Internal Dealing and consequently cancelled the Code of Conduct on Internal Dealing, adopted on November 12, 2002, pursuant to art. 2.6.3, title 2.6 of the Rules of the Markets organised and managed by Borsa Italiana SpA.

This procedure (effective as from April 1, 2006) was subject to a first review by the board of directors on August 3, 2016 following the entry into force of the EU Regulation no. 596/2014 (MAR Regulation) and was later updated during 2017 following the regulatory clarifications occurred.

The procedure regulates the process for compliance with the disclosure obligations relating to transactions carried out by relevant persons on the listed securities issued by Buzzi Unicem

and for which Buzzi Unicem fulfils the communication obligations on behalf of the relevant persons, upon previous agreement with the same.

5. *Relations with institutional investors and shareholders*

An officer has been designated for the relations with institutional investors and shareholders (Investor Relator) in the person of Agostino Pieressa who, following the guidelines laid down by the executive directors, has the task of establishing a continuous dialogue with the institutional investors and the shareholders. The board of directors deems that the function's structure is adequate for such purposes.

It is reminded that in compliance with the shareholders' meetings rules the Chairman can invite to attend the meetings experts, financial analysts and qualified journalists.

The company, in order to ensure a continuous and timely information to the shareholders so as to allow them an informed exercise of their rights, has established a specific section on its website www.buzziunicem.it, in which it makes available, among other things, the notices of shareholders' meetings with the procedure for the participation and the exercise of the voting rights, the documentation relating to items on the agenda of the shareholders' meetings, the lists of candidates for the positions of director and auditor with the candidates curricula, and the minutes of the shareholders' meetings.

Moreover, on the above-mentioned website, the bylaws and the shareholders' meeting rules are made available as well as the annual reports and the interim reports released according to the law and all press releases issued by the company.

Contact details of the Investor Relations' function are available on the company's website, Investor Relations section.

6. *Shareholders' meetings*

The board of directors has laid down a set of rules to govern the conduct of the ordinary, extraordinary and special shareholders' meetings, guaranteeing the right of each shareholder to speak on the matters under discussion. These rules have been drawn up on the basis of the facsimile-model prepared by Assonime.

The Rules have been approved in their last version by the shareholders' meeting of May 8, 2015 and are available on the company's website www.buzziunicem.it.

Neither the bylaws nor the shareholders' meeting rules provide rules different from those set by the applicable legislative and prescribed provisions in relation to the conduct of the shareholders' meetings, their main powers, the shareholders' rights and the way to exercise them.

7. *Manager responsible for preparing the company's financial reports*

The board of directors of May 12, 2017 appointed the manager responsible for preparing the company's financial reports, in the person of Silvio Picca, provided with the statutory requirements, throughout the board of directors' term of office, i.e. till the date of the shareholders' meeting called to approve the financial statements as at December 31, 2019.

8. Members of the Statutory Auditors' Committee

8.1 Appointment of the statutory auditors

The appointment of the statutory auditors occurs by means of the slate voting system provided by article 23 of the bylaws. In summary the rules for the appointment and replacement of the statutory auditors provided by the bylaws are the following:

- a statutory auditors committee consisting of three regular auditors and two or three alternate auditors; minority shareholders can appoint one regular auditor and one or two alternate auditors;
- the possibility to submit lists by the holders of shares with voting rights representing at least the percentage required for the submission of lists of candidates for the appointment of the board of directors. Consob set this threshold at 1% of the voting stock for 2017, i.e. when the statutory auditors' committee was renewed. If, by the submittal deadline as hereinafter indicated, only one list has been deposited or only lists submitted by shareholders linked among them pursuant to Consob Regulation no. 11971/99, the above threshold shall be reduced by 50%;
- the obligation to deposit the lists within the terms provided by the applicable regulations (the 25th day prior to the shareholders' meeting day, except when only one list is submitted or only lists submitted by shareholders linked among them pursuant to Consob Regulation no 11971/99, in which case lists can be submitted within the deadline set for the purpose by Consob Regulation no. 11971/99, i.e. up to three days after that date). The lists shall be complete with (i) information about the identity of the shareholder and the percentage of shareholding, (ii) a statement by the shareholders other than the majority ones declaring the absence of links with the latter ones and (iii) exhaustive information about the personal and professional features of the candidates;
- the obligation for the lists consisting of at least three candidates (computing both the section of candidates to the position of regular auditor and the section of candidates to the position of alternate) to include in each section, if consisting of at least two candidates, candidates belonging to different genders;
- a voting system such as to ensure the appointment of one regular auditor and one or two alternate auditors from the second list that has got the most votes after the majority list; in the case of a tied vote among more minority lists, the candidates are appointed from the list submitted by the shareholders having the greater equity interest or, subordinately, by the greatest number of shareholders;
- in case only one list should be submitted, the shareholders' meeting shall resolve by the simple majority of votes and should this list obtain the majority of the votes, the candidates shall all be elected and the chair shall be due to the first candidate on the list;
- the replacement within the majority list of the last elected candidates belonging to the gender more represented by others belonging to the gender less represented, in the event a gender should be less represented than what provided by the regulations in force as a consequence of slate vote;

- the chair of the statutory auditors committee to the regular auditor appointed by the minority;
- a replacement system for the minority auditor such as to ensure in any case the presence of a regular auditor from the minority;
- in the event of termination during the term of office, the replacement in compliance with the regulations which ensure gender balance within the respective lists submitted and, failing that, the prompt call of the shareholders' meeting to restore the gender balance;
- should it not be possible in whole or in part to appoint the directors according to the above rules, the shareholders' meeting shall resolve by the simple majority of votes, in compliance with the regulations in force, including the rules that ensure the gender balance.

8.2 Composition and functioning of the statutory auditors committee

The statutory auditors committee in office until May 12, 2017, which terminated due to expiry of the deadline, was composed of 3 regular and 2 alternate members, in the persons of Mario Pia and Paola Lucia Giordano, as regular auditors, and Margherita Gardi, as alternate auditor, elected from the list presented and by the controlling shareholders Fimedi S.p.A. and Presa S.p.A., and Fabrizio Riccardo Di Giusto, as chairman, and Massimo Cremona, as alternate auditor, elected from the list presented by a group of international and national institutional investors, owners of 1.296% of the entire voting stock.

The statutory auditors' Committee presently in office, following the resolutions of the ordinary general meeting of May 12, 2017 is made up of three regular auditors and three alternates, in the persons of:

Fabrizio Riccardo DI GIUSTO	-	Chairman
Paola Lucia GIORDANO	-	Regular auditor
Giorgio ZOPPI	-	Regular auditor
Giulia DE MARTINO	-	Alternate
Domenico FAVA	-	Alternate
Margherita GARDI	-	Alternate

The regular auditors presently in office do not hold positions in other listed companies.

Attached to this report are the curricula of the regular auditors, which report exhaustive information on their personal and professional features, as well as the statements they issued on their having the qualifications provided by the law and specifically the criteria of independence required by the regulations in force.

The statutory auditors committee will expire on the date of the shareholders' meeting called to approve the financial statements as at December 31, 2019.

The appointment of the statutory auditor's committee took place by slate voting, as provided by art. 23 of the bylaws.

Specifically, for the appointment purposes, two lists were deposited by the submittal deadline and under the terms provided by the bylaws:

- the one submitted by the controlling shareholders Fimedi S.p.A. and Presa S.p.A, jointly holders, at the list's submittal date, of 58.634% of the voting stock, from which the auditors Paola Lucia Giordano and Giorgio Zoppi and the alternate auditor Margherita Gardi were taken (except for the candidate for the office of regular auditor Gianna Luzzati and the candidate for the office of alternate auditor Roberto D'Amico);
- the one submitted by a group of international and national institutional investors, which in total are holders of 1,10015% of the voting stock, from which the Chairman of the statutory auditors' committee, Fabrizio Riccardo Di Giusto and the alternate auditors Giulia De Martino and Domenico Fava were appointed.

Both lists, complete with the documents required by Consob Regulation no. 11971/99, were deposited at the registered office and made available to the public in accordance with the procedures and terms of the laws and bylaws.

The lists submitted including the list of their candidates as well as the outcome of the vote at the meeting are available on the company's website www.buzziunicem.it Investor Relations section /Shareholders' Meetings.

Diversity policies

As mentioned in the previous paragraph 1.2, the Board of Directors of November 9, 2017 approved the policies on diversity with regard to the composition of the corporate bodies, which are indications aimed at ensuring, as far as possible and without prejudice to the competence of the shareholders' meeting, a diversity deemed optimal in relation to the achievement of the correct fulfillment of the functions due to the administrative and control bodies.

These policies, in short, provide indications regarding the professional features that members of the corporate bodies should have in order to ensure levels of competence and professionalism suitable to the group's complexity and international dimension.

The board of directors believes that the members of the corporate bodies should have developed training and professional process being able to provide a relevant managerial competence, preferably with an international background (not necessarily referring to foreign nationality, but having a strong experience abroad and with a "global" vision).

With regard to the composition of the statutory auditors committee, the board of directors believes that there should be at least two statutory auditors in this body, who have exercised the activity of statutory auditing for a period of no less than three years.

With regard to the representation of gender, the personal and seniority characteristics of the statutory auditors as well as the procedures for implementing the policies, the same indications as for the board of directors were adopted, as already illustrated in paragraph 1.2 above, to which reference should be made.

The statutory auditors' committee, in the first meeting after the appointment, checked the existence of the independence requirements of its members on the basis of the independence criteria required by the Code of Conduct referring to the independence of directors, as they are applied by the company and, therefore, with the removal of the criterion relating to the

presence in the statutory auditors' committee for more than nine years out of the last twelve years.

The board of directors communicated the outcome of this assessment following the appointment of the statutory auditors committee by issuing a press release to the market.

Moreover the result of the assessment made by the statutory auditors' committee on March 19, 2018 on the continuing compliance with the independence requirements of its members is hereunder reported:

“The statutory auditors' committee has ascertained the correct application of the criteria which allow to qualify its members, collectively and individually, as independent, with respect also to the Code of Conduct as adopted by the company as regards the directors' independence requirements.

With regard to the remuneration of the statutory auditors, on the occasion of its renewal in 2017, the board of directors highlighted in the respective explanatory report to the shareholders' meeting that the remuneration of the statutory auditors should be commensurate with the commitment required, the relevance of the role played and the dimensional and sectorial characteristics of the company.

Also during 2017, the statutory auditors' committee, in carrying out its activities, coordinated with the Internal Audit and the Control and Risk Committee. Specifically, the Chairman of the statutory auditors' committee, together with the head of Internal Audit, attended all the meetings of the Control and Risk Committee, reporting then to the statutory auditors' committee; to some meetings of the Control and Risk Committee the entire statutory auditors' committee also participated. In addition, the statutory auditors' committee has held regular meetings with the Head of Internal Audit, within which the audit activities carried out by the function were analysed.

Moreover, the statutory auditors' committee has monitored the independence of the auditing firm.

Finally, the statutory auditors' committee has complied with the principle by which an auditor who has an interest, either directly or on behalf of third parties, in a certain transaction of the company, he timely informs the other auditors and the chairman of the board of directors about the nature, the terms, origin and extent of his interests. To be pointed out that during the year 2017 no such situations occurred which would require the above reporting.

9. Auditing firm

The auditing firm appointed to audit Buzzi Unicem financial statements is EY S.p.A. The auditing appointment was conferred on the justified proposal by the statutory auditors' committee by resolution of the shareholders' meeting of May 9, 2014 for the years 2014-2022 and consequently it will expire with the shareholders' meeting convened for the approval of the financial statements as at December 31, 2022.

10. Comments on the letter dated December 13, 2017 by the Chairman of the Corporate Governance Committee

The recommendations contained in the 2017 Report of the Corporate Governance Committee on the evolution of the corporate governance of listed companies and forwarded by letter of the Chairman of the aforementioned committee on December 13, 2017, having been received after the conclusion of the self-assessment procedure, were presented to the board of directors at the meeting of March 28, 2018.

Following the analysis of the Committee's recommendations, the board of directors assessed that, in relation to those concerning pre-meeting information, assessment of the independence requirements of directors, claw back clauses and end-of-service benefit , it is not necessary to undertake further initiatives as it considers to be in line with the provisions of these recommendations.

With regard to the recommendation concerning the self-assessment process of the board of directors, the board decided to maintain the current structure of the procedure by completing a specific questionnaire developed and verified every year by the internal structures of the company with the implementation, however, of the part of the questionnaire related to the evaluation of the effectiveness of the board functioning.

Concerning the establishment of the appointment committee, the board of directors decided for the moment not to carry out specific actions for the reasons indicated in the corresponding paragraph of this report.

As regards succession plans, the board's assessment of not providing them for the time being is confirmed, also due to the organizational structure of the company.

Finally, with reference to the suggestion of giving greater weight to the long-term variable components, the board decided to maintain the current remuneration structure considering that the variable part of the remuneration of executive directors and managers with strategic responsibilities also refers to target results, partly based on a two-year calculation, and that management is the expression of the controlling shareholder and its direct involvement in management guarantees the alignment of medium-long term interests between management and shareholders.

The structure of the board of directors and of the statutory auditors' committee as at December 31, 2017 is summarized in the two attached tables.

Casale Monferrato, March 28, 2018

For the Board of Directors
The Chairman
Enrico Buzzi

(*) Sol is an Italian based multinational group listed on the Milan Stock Exchange since 1998, with a turnover of €703 million and headcount of 3,217 units, operating in the production and distribution of industrial and medicinal gases (oxygen, nitrogen, argon, helium, hydrogen) and in home care in Italy and other 23 European countries (Albania, Austria, Belgium, Bosnia, Bulgaria, Croatia, France, Germany, Greece, Ireland, Kosovo, Macedonia, the Netherlands, Portugal, United Kingdom, Czech Republic, Romania, Serbia, Slovakia, Slovenia, Spain, Switzerland and Hungary), and a local presence in Brazil, India, Morocco and Turkey.

Linda Orsola GILLI

Chairperson and CEO Inaz Srl

In 1978 entered the family company INAZ, leader in the management and administration of human resources, founded in 1948. Marketing Director and then General Manager, has lead the technological breakthrough of the company by integrating strictly regulatory and administrative skills with software development and innovative services. Appointed as Chief Executive Officer and Chairperson, has consolidated the role of INAZ as a service provider partner for thousands of businesses, professional firms and public bodies with more than two million job positions managed.

INAZ today is an industrial group in which a number of subsidiaries and affiliates flanks the Parent Company, with 50 highly skilled employees. Headquartered in Milan, it has Research and Development Center in Milan and in Pisa, a network of over 50 commercial agencies and Software Service Centers widely scattered throughout the national territory.

The solutions offered by INAZ, software license and outsourcing services, are based on a basic principle: creating a useful system for the entire company, starting from human resources. It is a complete system, offering support and equipment to optimize the entire activities cycle related to human resources, from strategic decisions to the payroll processing.

Linda Gilli has a degree in Business Administration from the Università Bocconi in Milan and has three children, two of which already work in INAZ. In addition to corporate activity, a strong social and representation commitment for the affirmation of a modern entrepreneurship concept continues to be important.

She promote cultural initiative that has been stating over time "Piccola biblioteca d'impresa" to disseminate with conferences, study meetings and publications the company's conception as an actor of a modern social market economy.

Supports the AldAF – EY chair of Family Business Strategy at Università Bocconi.

Chairperson of ISVI – "Istituto per i Valori d'Impresa", an association promoting studies, publications, training and services, responsible entrepreneurship which is open to innovation. Member of the Advisory Board of the Vatican Foundation "Centesimus Annus" and the UCID Executive Council - Milan. She's 'also in the Organizing Committee of "Premio Giorgio Ambrosoli", and since 2016 Board Director of Avvenire S.p.A..
